SPEAKERS

Saturday 14. september 2019 - Thon Hotel Opera

Dr. Des Fernandes, founder of Environ

After qualifying M.B.; B.Ch. at the Witwatersrand University, I became a fellow of the Royal College of Surgeons at Edinburgh. Following my training as a Cardiac Surgeon with Prof Christiaan Barnard, I started specialising in Plastic Surgery. To me, cosmetic surgery is just one aspect of dealing with ageing; I take an active and holistic approach to health in general and in particular to aging.

We need to maintain a youthful active face and body on the surface as well as inside. I believe rejuvenation from the **Suture Loop Suspension** technique for “Scarless” mini and full face lifts should be combined with excellent skin care and **Skin Needling** to regenerate youthful skin as well as treat lax skin and scars.

Since about 1990, I've concentrated on facial plastic, reconstructive and cosmetic surgery only. This is because I wanted to gain a more focused experience in order to deliver the best results I could.

Dr. Dina Grinde, aesthetic doctor

Dr. Dina Grinde is a medical doctor with a passion for cosmetic medicine. She graduated from University of Oslo in 2011, and has worked in the field of aesthetic medicine since 2015. Dr.Grinde is committed to her work and use a holistic approach when working with here patients,for a natural result and a long-term doctor-patient relationship.

Dr.Grinde have always been interested in science, and completed a medical student research program parallel with her medical studies. She is currently finishing her PhD in immunology at Oslo University Hospital, Rikshospitalet. The findings from her research has been presented on various international congresses and Dr. Grinde has published in a wide range of peer reviewed international medical journals. Here ambition is to continue research in the field of aesthetic medicine.

Dr.Grinde is committed to both provide and train others to provide safe, effective, clinically proven high quality treatments, and she also holds a Master of Philosophy degree in Health Economics, Policy and Management from University of Oslo. She loves to teach, and is national trainer for both Teoxane and Arthrex, and a certified assistant trainer for Aptos.

Yvonne Palacios, product manager Environ

Yvonne Palacios is Norwegian Brand Manager for Environ and has her education in skin and body therapy with CIDESCO worldwide expertise.

Following her training she has been teaching in private schools and also been headmaster of skin therapy studies. Her main topics have been anatomy, physiology and dermatology.

She studied at Tunsberg Medical School in the fields of nutrition, vitamins and minerals to combine with dermatology. One of her major fields is cosmetic chemistry.

She has become one of the most experienced teachers within the topics of Vitamin A and effects on skin and is very committed to her fields of expertise. She is a co-writer of the Norwegian textbooks used in skin therapy education.
